

## Speed, Performance, Value - The Right Balance

- Non-slip adjustable levelling feet
- Approximately 5 meter long shielded cable
- Overload protection
- Precision load cell technology
- Mild Steel construction
- Four load cell construction
- Can be linked with AE402, GK or GC indicators (choose separately)
- Weighing
- Parts counting
- Percentage weighing
- Comparative Weighing
- Shipping and Receiving
- Batching Items for Processing
- Stock and Warehouse Auditing

## Technical Specifications

|                  |            |
|------------------|------------|
| Maximum capacity | 1500kg     |
| Readability      | 200g       |
| Platform size    | 1200x920mm |

## General Specifications

|                            |                  |
|----------------------------|------------------|
| Model                      | PU 1500          |
| OIML Class                 | 3                |
| Power supply               | 5 - 10 VAC or DC |
| Overall dimensions (wxdxh) | 1200x920x80mm    |
| Net weight                 | 65kg             |
