AELP pallet beams provide an affordable solution to weigh oversized or bulky items. Equipped with rugged built-in wheels and handles, AELP pallet beams are easy to set up and move. The low-profile beams permit easy accessibility to simplify loading, weighing and unloading. AELP comes with a 15-foot/5-meter shielded cable, allowing the indicator and beams to be positioned as needed. Four OIML-approved load cells provide precise, consistent measurements. The AELP pairs well with Adam’s GK or AE 403 indicators.

Low-profile beams facilitate safe, secure weighing of loaded pallets

**Features**

### Key Accessories

- **ATP thermal printer:** Easy-to-use features combined with quick set-up equals a truly versatile thermal printer. A single push-button feed key and three easy-to-read LED indicators make operation simple.

- **AdamDU data collection program:** Adam DU software connects a balance to the laboratory network, helping to achieve seamless data collection, transfer and analysis. DU features an easy-to-use interface with a main command window, allowing users to quickly collect information from up to eight Adam balances simultaneously using RS-232 or USB connections.
